

Curriculum Vitae/Resume

HARUN NABIYEV

Baku, Azerbaijan • +994(50) 2113928 • harun.nabiyev@icloud.com

EDUCATION

Dunya IB School

Baku, Azerbaijan

International Baccalaureate Diploma Programme

Expected June 2027

- Merit-based tuition scholarship recipient.
- **Higher Level:** Mathematics AA; English B; Computer Science. **Standard Level:** Physics; Economics; Azerbaijani A.
- **Predicted IB:** 44/45; GPA: 4.9/5.0.
- MYP distinctions: 8/8 in Biology; 7/8 in Physics, Design, Geography, and World History.

Cornell University

Ithaca, NY, USA

Pre-College Student, School of Continuing Education

June – July 2026

- Selected for a three-week programme, earning college credit alongside undergraduate students.
- Completed **AEM 2841: Python for Non-Dyson Majors** — final grade **A–** (GPA 3.7/4.00).
- Applied statistical modelling and data analysis to real-world datasets in Python.

Oxford Summer Courses

Oxford, United Kingdom

Summer Programme Student — Advanced Mathematics

Summer 2025

- Completed an intensive university-level mathematics course (~45 hrs/week over three weeks) in Oxford-style small-group tutorials.
- Strengthened analytical reasoning and problem-solving in topics beyond the IB curriculum.

ISSOS International Summer School

United Kingdom

Summer Programme Student

Summer 2024

- Completed a residential international summer programme combining academic coursework with leadership development and cross-cultural teamwork.

RESEARCH & PUBLICATIONS

Information Retrieval Reliability in Large Language Models: A Study of Source Verification

IJHSR

Sole Author — Peer-Reviewed Journal Article

Forthcoming, September 2026

- Sole-authored a **peer-reviewed review paper**, forthcoming in the **International Journal of High School Research (IJHSR)**, September 2026, on why large language models generate unsupported content (hallucination) and how source-verification mechanisms mitigate it.
- Synthesised **20+ studies** from arXiv, ACL, NeurIPS, ICLR, and ACM Computing Surveys across four layers of the problem — **retrieval-augmented generation (RAG)**, source-reliability estimation, chain-of-verification self-checking, and benchmark-based measurement.
- Found that RAG substantially reduces hallucination but introduces new reliability risks tied to source quality, currency, and diversity; identified explicit reliability modelling, multi-step verification, and independent benchmark datasets as the most effective safeguards.
- Developed a practical **source-verification checklist** for students and general users, addressing the limited source diversity available in **Azerbaijani** and other lower-resource languages, and argued for embedding verification skills directly in school curricula.

Eduvest — Artificial Intelligence as a Financial Trading & Literacy Tool

Baku, Azerbaijan

Co-Founder & AI Developer

Sep 2025 – Present

- Awarded **3rd place** at *Sabahın Alimləri*, one of Azerbaijan's leading youth research and innovation programmes, and selected to represent Azerbaijan at the **International Science and Engineering Fair (ISEF)**.
- Awarded **Microsoft Special Award** at the **International Science and Engineering Fair (ISEF)**.
- Building an adaptive AI platform that analyses publicly listed firms on the **Baku Stock Exchange** and explains their financial statements to novice investors in clear, everyday language.
- Leading development of the natural-language processing system, using **Python, the OpenAI API, and neural-network models** to extract, process, and summarise complex financial disclosures.

EXPERIENCE

National Artificial Intelligence Center (NAIC)

Baku, Azerbaijan

Artificial Intelligence Intern

June 2026 – Present

- Develop Python applications under senior-developer mentorship, including a game prototype requiring custom collision-detection logic.
- Debug and refactor existing code in team reviews, strengthening algorithmic problem-solving and version-control practice.
- Contribute during a period of rapid institutional growth, as the centre expanded from **15 to 70 staff**.

Curriculum Vitae/Resume

HARUN NABIYEV

Baku, Azerbaijan • +994(50) 2113928 • harun.nabiyev@icloud.com

Ideia Space

Remote

Space Data & Mission Analytics Intern

Spring 2026

- Applied satellite-systems concepts through end-to-end mission simulations covering orbital mechanics, ground-station networks, and mission control operations.
- Built familiarity with the full mission lifecycle, from launch planning through in-orbit operations and data downlink.

ASAN Service under the State Agency for Public Services and Social Innovations

Baku, Azerbaijan

Internship

Sep – Nov 2025

- Completed **100+ hours** of public service assistance, helping citizens draft official letters and complete government service applications with clarity and compliance.
- Supported agency staff by organising, cleaning, and structuring operational data in Excel and internal ASAN software, improving workflow coordination and service delivery.
- Used advanced Microsoft Word, Excel, and PowerPoint skills to prepare internal documentation and streamline information processing, upholding the centre's principles of efficiency and transparency.

Azercosmos — Azerbaijan National Space Agency

Baku, Azerbaijan

Research Intern (Observer)

June 2024- August 2024

- Observed operational satellite-data workflows across climate and geospatial applications at Azerbaijan's national space agency.
- Identified barriers between collected satellite data and public access, shaping a continuing interest in open data and public-facing analytics.

EXTRACURRICULAR ACTIVITIES

IMUN “Future We Want”

Washington, D.C., USA

Delegate representing Azerbaijan

November, 2026

- Debated global policy issues and co-drafted resolutions with delegates from **30+ countries** at an international forum.
- Represented Azerbaijan in committee, developing public speaking, negotiation, and consensus-building skills.

Safarov Judo Academy

Baku, Azerbaijan

Judo Athlete

2024 – Present

- Train three times weekly across 48 weeks per year in breakfalls, throws, groundwork, grip fighting, and randori.
- Also active in swimming, skiing, football, and cycling, with twice-weekly strength training.

Nationwide / International Competitions

- Placed **first** in an interschool intellectual competition, demonstrating analytical thinking, teamwork, and problem-solving under time pressure.
- Competed nationally in the **American Mathematics Olympiad** and **Math Kangaroo**, developing creative problem-solving under strict time constraints.
- Competed in the **International History Bee & Bowl** (Azerbaijan), developing rapid analytical recall, source evaluation under pressure, and collaborative team strategy.
- Admitted to online pre-college programmes in Finance at **Georgetown University, Northwestern University, and Dartmouth College**.

OTHER

Technical Skills:

Python (OpenAI API, NLP, data analysis); statistical modelling; Microsoft Office Suite

Certifications:

Duolingo English Test (2023) — Score: 125

SAT (2025) – Score: 1450 (Math:770; Verbal: 680)

Languages:

Azerbaijani (native); Turkish (fluent); English (advanced); Russian(intermediate)
